

Minuteman's MPV[®] Multi-Purpose Vacuum — Maximum Performance In a Versatile, Lightweight, Dual Motor Vacuum.

The lightweight MPV Vacuum is easy to operate and features a comfortable handle for easy transport.

Minuteman's MPV Multi-Purpose Vacuum Cuts a Wide 14" or 18" Path Through the Toughest Cleaning Jobs, Yet Is Lightweight, Quiet and Easy to Operate.

Minuteman[®]

Minuteman's dual motor, powerful, MPV[®] vacuums are lightweight with added bag capacity for longer, more effective cleaning power.

Minuteman's MPV is a versatile vacuum workhorse perfect for:

Airports
Cleaning Contractors
Convention Centers, Auditoriums
Hospitals, Healthcare Facilities
Hotels, Motels
Office Buildings
Retail Outlets
Schools, Universities
Shopping Centers

Designed to be the workhorse of many maintenance operations, the MPV (Multi-Purpose Vacuum) is a maneuverable, lightweight and durable upright vacuum that utilizes two heavy-duty motors. Quiet by industry standards, Minuteman's MPV operates with a separate brush drive and vacuum motor – which enhances its ability to remove deeply embedded soil. For operator comfort and effortless cleaning, the MPV has been specially designed with minimal handle weight. MPV's safety features include automatic protection for brush and vacuum motors.

In addition, a special user-friendly dirt collection system offers added capacity and allows the bag to be easily removed. Add to these outstanding features a crevice tool, a 6½ foot retractable hose with a large 1½" opening for greater performance — and Minuteman's MPV becomes the best value in the industry. The MPV's durable Lexan™ construction is lighter and more manageable which means less operator fatigue, better pick-up and increased productivity. Plus they're made in the U.S.A., where quality and costs are strictly controlled.

Low profile design allows the MPV to vacuum flush to the floor.

On board crevice tool makes detail cleaning easy.

| SPECIFICATIONS | Minuteman MPV 14" | Minuteman MPV 18" (shown at right) |
|----------------|-----------------------------|------------------------------------|
| Total Wattage | 1000 watts | 1100 watts |
| Amps | 8.2 | 9.2 |

Specifications subject to change without notice.

Minuteman is a full line manufacturer of maintenance products including critical filter vacuums, industrial and commercial vacuums, sweepers, scrubbers, floor and carpet machines, PowerBoss® sweepers and scrubbers, Parker Sweeper® Litter Vacs and Multi-Clean® Chemicals for industrial, commercial, and institutional facilities.

- The brush head of the MPV provides one-pass performance in 14" or 18" wide brush heads depending on your cleaning path needs.
- Two rugged motors – separate brush drive and vacuum motors – are quiet, yet maximize the sturdy MPV's ability to remove deeply embedded soil.
- A "built-in" handle makes the MPV easy to carry while quick release mechanisms make removal of brush head from vacuum safe and simple.
- Top-filling, easy-to-handle collection bag has expanded capacity to maximize full bag potential. Offers easy bag removal through a unique back panel "one-hand" clasp design. Plus, for operator and machine safety, the MPV collection bag must be installed properly before the MPV will operate.
- Patented interlocking anti-leak seal for 25% more efficiency than the competition.
- A secondary pre-filter protects the vacuum motor while a third filter operates as an exhaust filter.
- Optional hospital filter (99% efficient at 0.3 microns) available for critically clean environments.
- Convenient 6½ foot hose features a larger 1½" opening – 30% larger – which means greater performance, less clogging potential and more effective cleaning power. A crevice tool is included.
